Re: Automatic Tank Gauging Installation Brazil Police Department 22 South Washington Brazil, IN 47834 In accordance with your request, Midwest Petroleum Service, LLC is pleased to provide you with this proposal to perform ATG Installation activities at the above referenced facility. The scope of work includes the following: > Provide OSHA and Indiana Department Environmental Management (IDEM) certified personnel to perform field activities > Furnish and install one mag probe in riser > Furnish and install new float kit, adaptor ring, and cap > Furnish, install, and program new Incon TS-750 ATG system with 24 hour leak detection > Furnish and install new wire connecting Incon TS-750 to mag probes (wire will be cut into concrete) > Supply IDEM with completed Notification upon the completion of upgrade activities This cost assumes that the ATG wiring connecting the system with the probe can be cut into the concrete. Any delays or obstructions caused by the client or the client's agents may result in additional cost to the client. I appreciate the opportunity to provide you with this quotation and look forward to working with you on this project. Should you choose to proceed, please sign the bottom of the page and return one copy of this proposal to MPS. Should you have any questions or comments please do not hesitate to contact me.	\$5,700.00
